UNCIRCULATED 2002 COIN SET

Dear Collector,

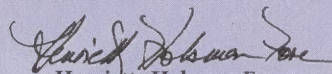

I am pleased to announce the release of the 2002 United States Mint Uncirculated Coin Set, featuring uncirculated versions of all our current circulating United States coins.

The set consists of a ten-coin set from both the Philadelphia and Denver facilities of the United States Mint, twenty coins in all, featuring immaculate uncirculated versions of the coins produced for circulation in 2002. Not only do you receive the classic circulating coins — the Kennedy half dollar, Roosevelt dime, Jefferson nickel and Lincoln cent — but also you will receive the Golden Dollar featuring Sacagawea and the five new quarters for 2002 in the 50 State Quarters® Program.

Under the United States Mint's unprecedented 50 State Quarters Program, five states — Tennessee, Ohio, Louisiana, Indiana and Mississippi — will be honored with their own quarters in 2002. Each one is produced for approximately 10 weeks and then discontinued, never to be produced again.

I urge you to take this opportunity to own uncirculated versions of these quarters and our nation's other beloved coins. Our coinage is one of the most durable and evocative representations of America's values, heritage and character — I know you will enjoy this impeccable and complete coin set for many years to come.

Sincerely,

Henrietta Holsman Fore
Director, United States Mint

NEW 50 STATE QUARTERS®

Available in 2002

This year five new quarters will be released through the 50 State Quarters® Program — never to be produced again. These 2002 quarters will honor Tennessee — “Musical Heritage,” Ohio — “Birthplace of Aviation Pioneers,” Louisiana — “Louisiana Purchase,” Indiana — “Crossroads of America” and, finally, Mississippi — “The Magnolia State.” When you purchase your 2002 United States Mint Uncirculated Coin Set®, you will receive all of the 2002 issues — *before* all five have entered general circulation.

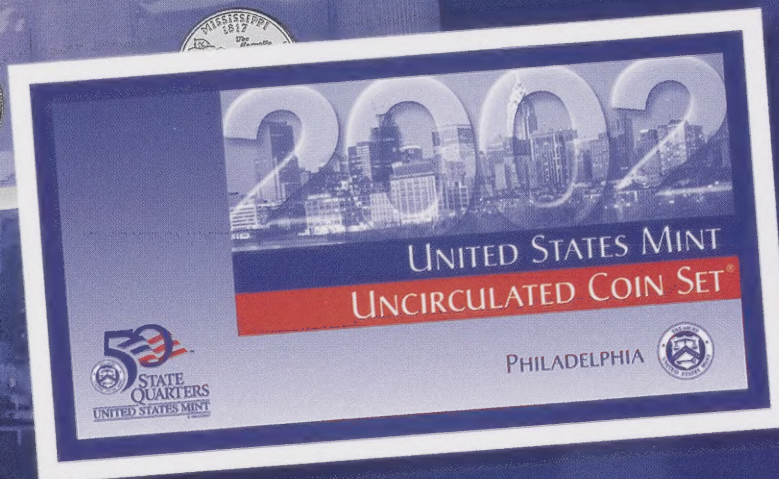

EVERY CIRCULATING COIN—IN BRILLIANT UNCIRCULATED CONDITION

This year, ten new 2002 coins will be minted at both the Philadelphia and Denver facilities of the United States Mint — the Golden Dollar featuring Sacagawea, Kennedy half dollar, Roosevelt dime, Jefferson nickel, Lincoln cent and five new quarters in the 50 State Quarters Program. Now you can have all twenty coins — a complete ten-coin set from each mint — in specially minted uncirculated condition. The 2002 United States Mint Uncirculated Coin Set® is protectively sealed in clear Mylar®, so these pristine examples of the nation's coinage will stay in their original mint condition.

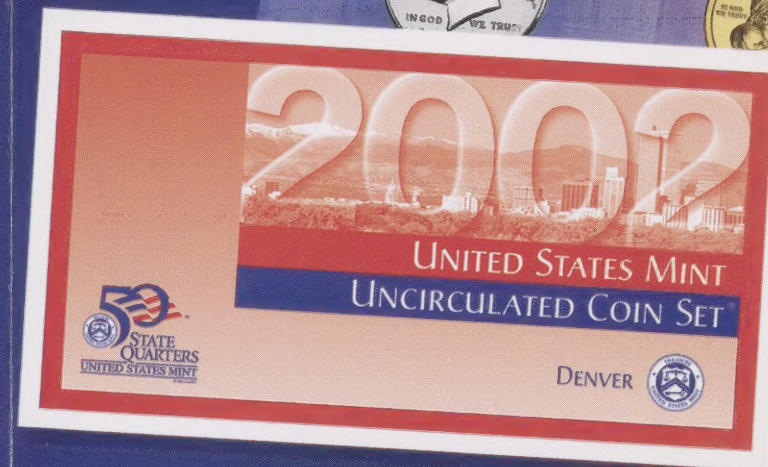

Our nation's coinage bears exquisite portraits of beloved national figures created by premier artists. These likenesses, from Victor Brenner's classic portrait of Lincoln to Glenna Goodacre's depiction of Sacagawea and her son Jean-Baptiste, are available in sharp, intricately detailed renditions not found in regular circulating coins.

**INCLUDES BOTH THE
PHILADELPHIA AND DENVER
GOLDEN DOLLARS FOR 2002**

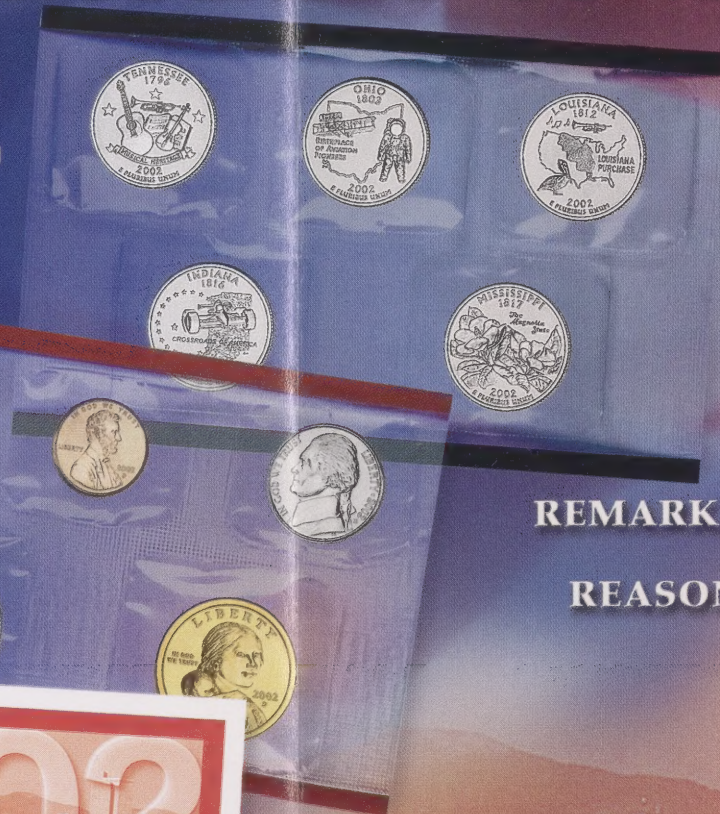

Uncirculated coins are minted on special presses and struck with greater force than circulating coins. The coins are then packaged and sealed to last through generations. The coins are carefully handled to ensure that your uncirculated sets will arrive in their original pristine condition.

At only \$14.95, the 2002 United States Mint Uncirculated Coin Set is a memorable gift to mark a special date or a perfect introduction to coin collecting. Order as many as you like, but order soon — quantities are limited.
